Kitchen & Bath Business

FEBRUARY / MARCH

MULTIGENERATIONAL DESIGN / COUNTERTOPS / FLOORING

THE OFFICIAL PUBLICATION OF KBIS

**Working with a Younger Generation  
Keys to Expanding Your Business  
Using Showroom Resources to Your Advantage**

THE OFFICIAL PUBLICATION OF **KBIS**

## What's Cool

10

10. **FERNO GRILLS** offers a proprietary firewheel that allows the user to adjust the height of the burners so food is never burnt. To use, turn the firewheel left to lower the flame away from the cast-iron grates, which is ideal for avoiding flare-ups and slow cooking because it evenly bathes the meat in heat. Turn right to raise the burners so the flame is close to the grates for heating up the grill and quick searing.

11. The Duette LightLock System from **HUNTER DOUGLAS** is engineered to prevent light leakage at the window and create a 100 percent room blackout effect. The secret to the total room darkening lies within the side channel design, which features rows of specially shaped micro-ridges that are optimized to absorb or deflect all incoming light.

11

12. WLabs, **WHIRLPOOL CORP.**'s innovation incubator, introduces its latest smart kitchen solution in 2019: the Smart Countertop Oven. Engineered to fit easily on your counter, the oven's leading food identification technology automatically recognizes various types of food and sets the time and temperature needed for a personalized and optimal result.

12

13. The Fiamma Fireclay Collection from **RUVATI** allows installation on the corner of a kitchen island. The corner sink comes in a double-bowl configuration with generous proportions. Crafted using time-honored techniques and a naturally white raw clay that is fired at 2,900 degrees Fahrenheit, the sink is resistant to chips, cracks and scratches.

14

14. **JACUZZI LUXURY BATH** has launched four families of premium-quality vanities that range from contemporary to classic and traditional in design. Shown here is the Mincio Vanity, which offers a transitional design in a semi-enclosed, high-quality cabinet. It also features a solid Carrara marble top, dovetail drawers and an open shelf underneath that provides storage and decorating options.

15

15. The Glass Care Center from **THERMADOR** is the industry's first dishwasher specifically designed for glassware. With its push-to-open feature, loading during a party is easy, even when hands are full. The dishwasher also boasts an LED interior and a Powerfully Quiet feature.
